

CPOINT

MCT  
Multi-Cable Tester

19-Pin Multi  
3-Pin XLR  
4-Pin XLR  
5-Pin XLR

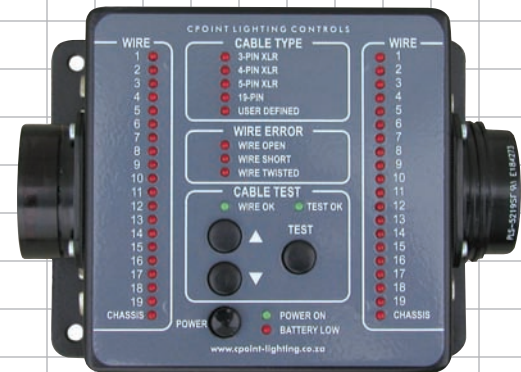

The CPOINT Multi-Cable Tester will reliably and quickly test 19-pin power cables, plus 3-pin, 4-pin and 5-pin XLR cables. Faulty cables are clearly indicated. A short, open circuit or a crossed connection will be displayed, as well as the type of cable tested. Test the entire cable at once or step through each conductor to find faults. Easily bench-mounted, the MCT is powered by an external power supply or batteries (rechargeable and non-rechargeable).

New MK-II version with selectable 19-pin mode switches for bussed/dedicated ground and chassis continuity testing.

### FEATURES

- Quickly and reliably test cables in one easy step.
- Test 19-pin cables, 3-pin, 4-pin, 5-pin XLR cables directly without adapter cables.
- Clearly displays all conductor faults.
- Tests conductors for crossed, open or short circuit.
- Test all in one go or manually, conductor by conductor.
- Bench mountable.
- Heavy-duty housing.
- External power supply or battery operated. Rechargeable batteries can be used.
- Battery-low and charge indication.
