

Introducing: The TopLight Plus SpaceBag "All in One" Higher Output "Space" Type light is now available.

The New TopLight Plus SpaceBag is an "All in One" unit that combines the Award Winning* TopLight fixture, updated and coupled with an amazing "SpaceBag" system with self-contained skirts.

Powered by six Par 64 globes, an enormous amount of light is projected from the sides and bottom of the bag uniformly in a "Space/Lantern Type" pattern. This is accomplished with a trapezoidal "Flat Topped Pyramid" internal baffle (Patent Pending) that allows light to be reflected out of the sides and transmitted through the bottom of the poly-silk SpaceBag.

Several times the output of traditional (double-ended globe type) Space lights is achieved and easily controlled with the "built-in" skirt system. Four skirts are rolled into pockets along the Gentex® shell allowing a full "Space" type light pattern. These skirts can be rolled down individually to contain any side of the rectangular silk or can all be pulled down to fully skirt all sides of the Toplight.

The resulting light is softer, more powerful and more deeply projected than traditional "Space" type lights.

Compared with conventional "Space" type lights, TopLight provides softer, more powerful and deeply projected light with fewer lights, resulting in better performance and tremendous savings in cable, dimmers, and time!

TopLight's rectangular shape and unique internal baffle allows for precision blending of multiple sources and north/south/east/west control of the output.

Ideal for many Green Screen, Sky Light on Stage, and other Large Area applications.

*TopLight is recognized by the Academy of Television Arts & Sciences for "Outstanding Achievement in Engineering Development."

Features:

- Powerful
- Lightweight
- Softer
- More Control
- Deeper Projection
- Quick Hang
- Replaces Multiple Space Lights/Coops
- Stackable
- Long Lamp Life
- Socapex/Harting

Specifications:

Lamps: 6 x PAR 64; MFL recommended
Circuits: 6
Voltage: 120/220 VAC (lamp-dependent)
Power: 6 kW; 1kW max per lamp.
Weight incl. lamps: 44.5 lbs. (20.2 kg)
Dimensions w/SpaceBag (HxWxL): 43" x 36" x 56"
(109 x 91.5 x 142 cm)
Connector: Socapex/Harting

U.S. Patents 6,106,125 6,588,912 B1 6,719,434B1
Other U.S. & Foreign Patents Pending
